of Thomas the goose and Henry the Black Swan received world -wide fame in February 2018 when Thomas the blind bisexual Goose passed away and was buried next to his partner of nearly 30 years --a black swan called Henry. Headlines appeared in news columns as far as the UK and America including the BBC news, Daily Mail and even a mention on the Ellen show in the US

Now the story also involving a love triangle with Henrietta the swan has been immortalized forever in my new children's Book "Thomas" a true love story for children and adults of all ages. The book accompanied by a poem written by Pinky Agnew and a song by Band "Uz Blokes" will be launched at the Waikanae Estuary car park south end of Tutere Street on the 1st of November at 2pm
